

Last month I was invited by the builder to perform the final inspection and take possession of my apartment in Pune. Since I was in Netherlands, I neither had the time to visit India nor the skill set to perform the inspection. MACJ A Buyer's Choice Home Inspections provided a quality solution to the problem.

The team from MACJ-ABCHI performed a thorough inspection of the apartment and clearly laid down all the defects and observations in the report. I could have never even imagined to perform such detailed but important checks on the apartment.

Because of the professional quality of the inspection and detailed defect report, the builder gracefully accepted the inspection report and agreed to fix all the defects mentioned on it. I can now peacefully accept the possession of the apartment, knowing that all issues have been identified by MACJ and fixed by the builder.

MACJ-ABCHI provided a professional service from beginning till end and I would recommend everyone to use a professional inspection team like MACJ-ABCHI before investing a lifetime of savings to buy a dream home.

Thanks
